

Last Name: _____

Future of IT Interdisciplinary Research		
	Your Experience and Suggestions	Ideas for Implementation
What are the emerging research questions in your field? Does this work require interdisciplinary research?		
Are there promising new interdisciplinary fields?		
What new themes for interdisciplinary IT research would you suggest, if any?		
Are there new policies, procedures, or practices, or other changes in funding, that NSF might consider to foster these new areas of research?
