

**National Science Foundation  
ITR Assessment**

The National Science Foundation is obligated to review and assess its research programs.

Sara Kiesler, CMU and lead PI on the ITR assessment project, and Jonathon Cummings, MIT and co-PI on the ITR assessment project, will be conducting a systematic assessment of the ITR program in connection with this meeting. They, and discussion leaders, will take notes during the meeting and will conduct a survey after the meeting. We have included a consent form for this research.

If you wish to see the results of the previous assessment of NSF's KDI program, you can view the KDI website at <http://www.cise.nsf.gov/kdi/> and download the final report (PDF) at <http://www.cise.nsf.gov/kdi/links.html>.

The consent forms describing your participation follow this page. Please review the information and sign the forms if you agree to participate.
